

# Seed Production Technology for Africa

STAK Partnership Interaction Event  
Nairobi, Kenya

February 5, 2020

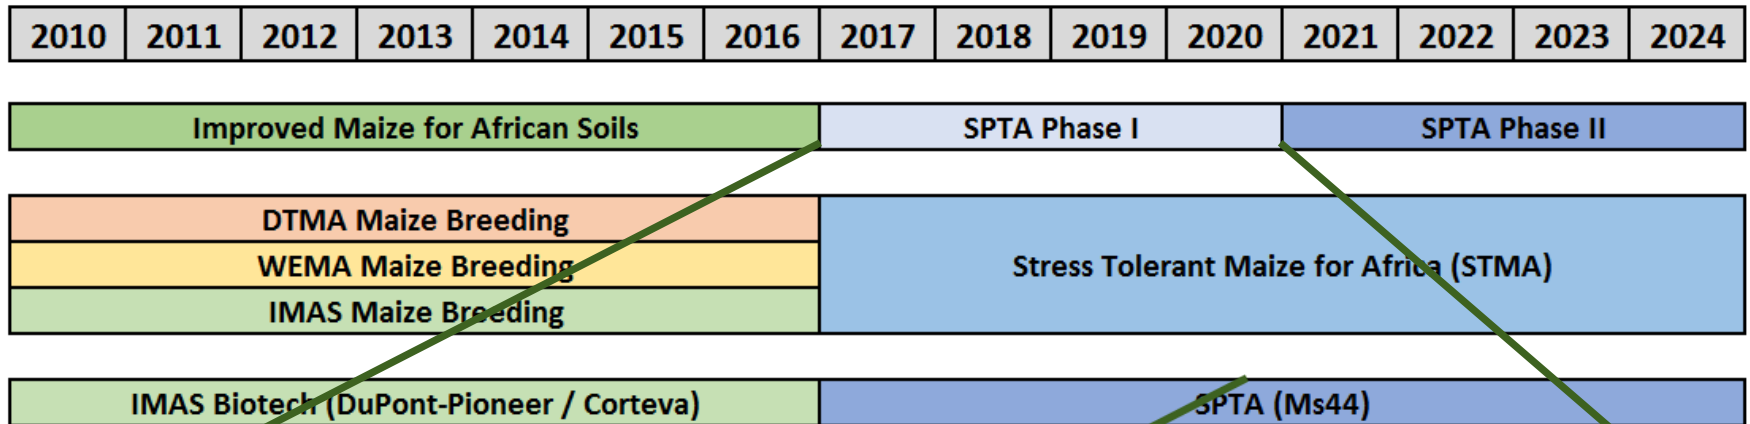

# Seed Production Technology for Africa (SPTA)

Support the African seed sector to :

- Improve genetic purity of hybrid seed
- Increase operating efficiency
- Deliver hybrids with improved performance

Courtesy J.  
MacRobert

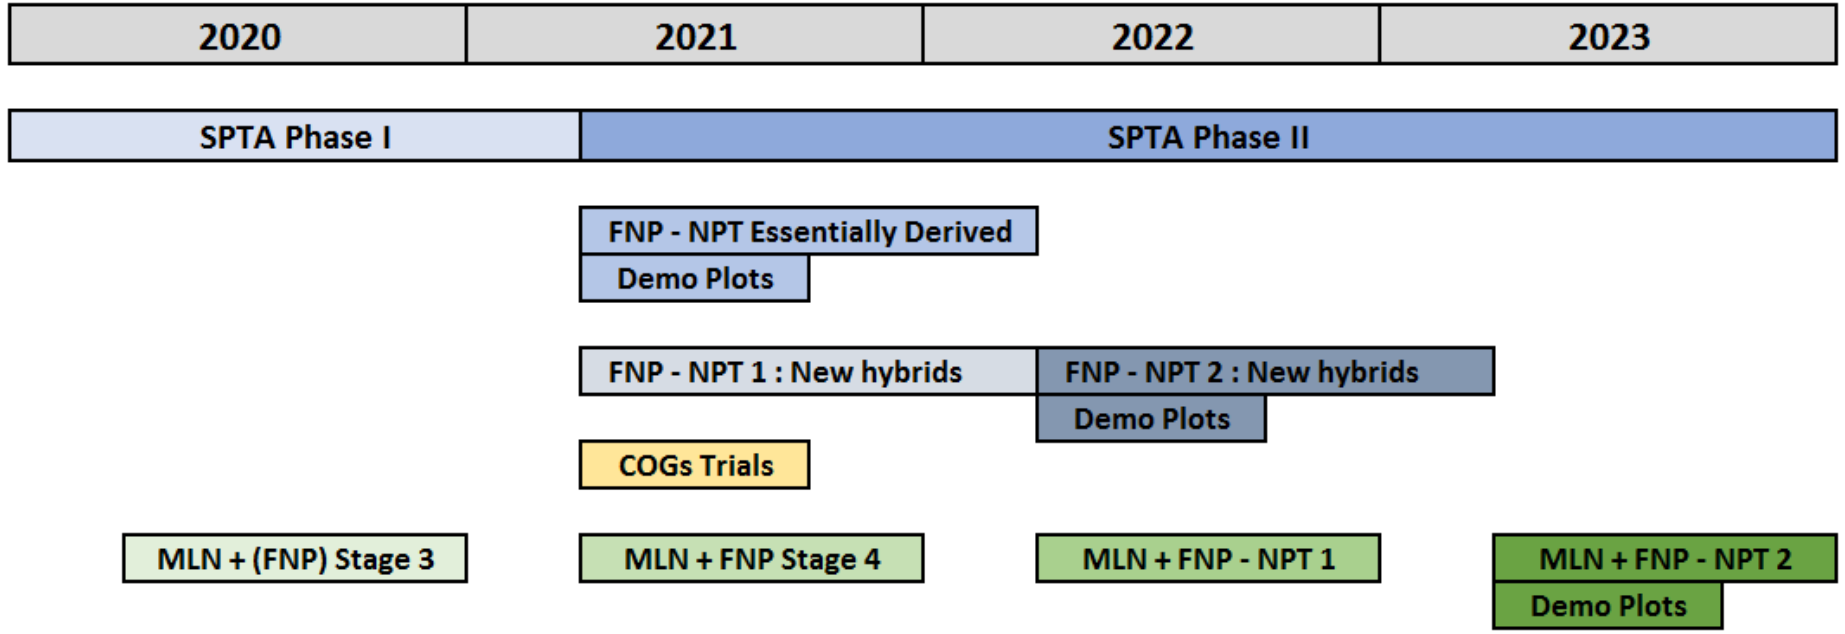

- Key African lines converted to Ms44-SPT
- Estimate value of trait product concept (FNP) for African maize small holders
- Estimate value of SPT system for seed company partners
- De-regulation of the Ms44 maintainer cassette in USA
